BABY & MATERNITY  
PORTRAITURE

I specialize in maternity, newborn and baby photography, fantasy and glamour portraiture.

Maternity portraits can be taken on location, at your home or in my home studio.

I prefer to capture my baby photography on location at your home, where you and your baby are more comfortable and relaxed. Natural lighting is best, preferably near a large window or under a shaded patio. Newborns are best photographed under two weeks of age when less likely to be disturbed while sleeping and still comfortable in the fetal position. New born sessions can last anywhere from 1-4 hours depending on how cooperative your baby is.

I charge \$150 - \$200\* per sessions this includes a disc with 10 - 20 of the best edited images in low resolution (not suitable for prints) and a set of 6 x 4 proofs for you to select your prints. Proofs are generally ready for viewing 2 to 3 weeks after the shoot and are also uploaded to a private online gallery. Prints and Packages can be paid off on a fortnightly basis but I require \$100 deposit.

\*Rates may vary depending on the job and on your location.

Disc of digital negatives available for \$100 with all packages or orders over \$300.00

Prints	5x7	\$5.00
	8x12	\$15.00
